

Rules on Creating a Corporate Team

Creating a Corporate Team:

A company can register runners for the event as part of a corporate team, or when registering on the website you can select a team to join. If your team doesn't exist, you can create one. At the day of the race, please confirm your team with a race official.

There are three categories, men's team, women's team, and coed team. Teams are comprised of either:

- Men's team of three
- Women's team of three
- Coed team of two men and two women

A company can have multiple men's, women's, or coed teams competing in the same race.

Please note: Runners can compete as part of a team or individuals, but not both.

Corporate Race Team Scoring Per Race

- The corporate team with the lowest total combined time for each race as measured by the electronic timing system is the winner.
- The first place team for each category (men's, women's, coed) at each race will receive a team trophy for display at their office.
- The winners will be announced during the awards presentation after the end of the race.

Westchester Corporate Cup Race Series winner

The overall series awards will be given to top three men's, women's and co-ed teams for the best cumulative times over the course of the three-race series.

- A corporate team must participate in all three Westchester Corporate Cup 5K summer races to qualify as the Summer Race Series winner.
- The corporate team with the lowest total combined time for all three races as measured by the electronic timing system is the winner.
- The first place team for each category (men, women, coed) will receive the annual Westchester Corporate Cup Summer Race Series team trophy for display at their office.
- The winners will be announced during the awards presentation after the last race in August.
